## THE ISLAND

*Lungnhuadsamui/Shutterstock.com*

Koh Samui, or “Samui” for vernacular speakers, is located in the Gulf of Thailand. It is the second largest island in Thailand after Phuket and measures 25 kilometres at the widest point. The main road runs along the beautiful coastline and is approximately 51 kilometres long. In contrast to the stunning beaches, the central part of the island consists of a tropical, jungle mountain.

Centuries ago, the island was inhabited by Chinese fishermen. Nowadays, it is a melting pot of people coming here from all four corners of the world. The island appeals just as much to billionaires as it does to backpackers travelling on a budget.

The largest and most popular area is on the east side of the island and is called Chaweng. Chaweng is located near the airport and offers beautiful golden sand stretches, bars, restaurants and shops. Nathon is located on the west side of the island and is the old capital of Koh Samui. This is still the main port, business district and centre of the fishing industry. Two of the other major tourist resorts are Lamai Beach and Bophut Beach.

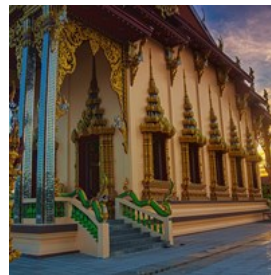

## DO & SEE

*TunedIn by Westend61/Shutterstock.com*

On Koh Samui you can choose to do nothing, or to do everything. The island is perfect for a relaxing holiday on the beach, with colorful drinks in your hand and sun on your skin. For the more adventurous ones there is plenty to explore, from nature to shopping and food.

### Wat Plai Laem

Wat Plai Laem is one of Koh Samui's most attractive temples. This fairly new sight was completed in 2004 and is a colourful complex with a traditional Thai-Chinese style. The temple holds two giant, colorful statues of Happy Buddha and Guanyin that will amaze you. Do not miss the large Golden Buddha inside Wat Plai Laem.

### Best Time to Visit

One could say that visiting Koh Samui is a good idea any time of the year. The weather is almost always sunny and warm, making it the

perfect getaway from places with colder climates. All you need to know is that January is the coolest month of the year, but it has an average temperature of approximately 26°C/79°F. If you want to avoid the rainiest months, they are usually October, November and

early December. From February to April there's usually great beach weather with temperatures gradually rising, making these months high season in Koh Samui.

### Public Transport

On Koh Samui you will get by easily with "Songthaews", motor bike taxis and taxis. The Songthaews are the main means of transportation

on the island and you should expect to pay approximately 30-50Bath. They operate from early morning regularly during the day. The motor bike taxis are about the same price.

A flexible way to discover the island is to rent car, a motorbike or Jeep. But be careful on the roads, as Samui has the highest road accident statistics in Thailand.
