Mykonos is an eclectic place—pristine beaches, elegant boutiques, fine dining, and rowdy bars are all packed onto one tiny piece of land, a mere 15km long at its widest point. Partying is a round-the-clock affair here, against a scenic backdrop of whitewashed houses and Little Venice, Mykonos Town's most charming neighbourhood.

THE ISLAND

Leanne Vorrias/Shutterstock.com

The tiny Cycladic island of Mykonos sprung to blossom as a tourist destination in the 1960s and 1970s when it was first discovered by the global glitterati and became featured in magazines as the new hot place to be for the "it" crowd.

The island today has kept little of its past exclusivity—although celebrities do make appearances at some of its fashion boutiques every now and then—and welcomes diverse crowds every summer season. July and August are the busiest, with late spring and early fall allowing visitors to discover a quieter, more tranquil side to the island.

During high season, avoid the narrow streets of Mykonos Town (also referred to as "Hora", or "Chora") during the daytime to escape cruise ship crowds and venture out to one of the island's many beaches, or try scuba diving under the careful supervision of professionals from the island's many dive centres.

The island, along with its tiny neighbour of Delos, featured prominently in Greek mythology and was first settled in the 11th century BC. Excursions into the past may be made via the island's several tiny museums and the well-maintained Archaeological Site of Delos.

DO & SEE

Avatar_023/Shutterstock.com

The entire island of Mykonos is only 15km at its widest point—a small but intimate place, where it's possible to see everything in a relatively short period of time.

Start off by strolling through Little Venice, the waterfront bar and restaurant strip of Mykonos Town, and make your way up into the maze of narrow streets dotted with shops and eateries. Take a photo against the backdrop of the island's iconic windmills, and of course, make the most of its many splendid beaches.

Little Venice

This scenic neighbourhood is a delight both day and night. Stroll along the waterfront and get a feel for the town while taking in the distinct local architecture. Sit down for a seafood lunch, have dinner with a view (over the blue waters and iconic hilltop windmills), or explore the bar scene after sundown.

Beaches

If beach parties are what you're after, Mykonos will not disappoint. Check out the famous Paradise Beach and/or Super Paradise Beach for some

of the hottest waterfront bars and clubs that never sleep (dancing is often in full swing in broad daylight). For a more relaxed, quieter experience, head to Elia, Platis Gialos, Ornos, Panormos, Paranga, or Agios Sostis Beaches—the latter is a true hidden gem tucked away far from the frenzied crowd in the island's north.

The Windmills

The island's iconic landmark is its collection of whitewashed round windmills (or Kato Milli), which make for some incredible postcard-ready photographs.

DINING

Pawel Kazmierczak/Shutterstock.com

The sheer number of eateries for an island as small as Mykonos is dazzling, with the majority of restaurants and tavernas concentrated in Mykonos Town and along the waterfront of Little Venice.

M-eating

Tucked away in the windy maze of the town's streets is M-eating, an upscale dining establishment that serves top-notch Mediterranean cuisine.

CAFES

BARS & NIGHTLIFE

EGUCHI NAOHIRO/Shutterstock.com

The party never dies in Mykonos, where day-time beach entertainment often precedes the "classic" nightclubbing experience. Some of the loudest, rowdiest beach venues are to be found at Psarrou Beach (popular with Greeks) and the Paradise/Super Paradise Beaches. In Mykonos Town, pre-sunset pastimes are much tamer, with relaxing waterfront bars of Little Venice getting packed with patrons savouring slightly overpriced cocktails in the evenings. At night, the island's many clubs open their doors to those still ready to paint the town red.

Best Time to Visit

The best time to visit Mykonos is in September and October. During these two months, the weather is still warm and the water temperature is

still perfect for swimming. July and August are known as the peak season when every corner of the island is permeated with vacationers, so if you are looking for a tranquil vacation it's best to avoid these two months.

Ferry

Most ferries run between April and October. Direct connections to Mykonos via high-speed ferries and boats are available from Piraeus and Rafina (check

in advance whether your ferry arrives at the old or new port, this may vary by company). Ferries also run to and from other nearby islands in the Cyclades.

Public Transport

There are two bus stations at the opposite ends of Mykonos Town-these are a 20-minute walk away from one another. Use

the main station (Fabrica) to catch a bus to Paraga, Platys Gialos, Paradise, Agios Ioannis, and Ornos. The northern station serves Elia, Ano Mera, Panormos, and Kalafatis. Bus frequencies may vary depending on the time of year (more buses run during the high season); intervals are usually somewhere between 30 minutes and an hour. Tickets may be purchased from the driver directly or in advance at ticket machines and tourist shops.

Small fishing boats are an alternative means of transport-these circulate between the main beaches of the island.

Taxi

Taxis in Mykonos are in high demand, and getting one in the high season might require some patience. Taxis can be hired in Manto Square

(also referred to as the Taxi Square). There are usually fixed prices displayed inside the cabs for main destinations around the island, meters are normally not used. Ordering a taxi often comes at an extra charge.
