The mythical birthplace of the goddess Hera, Samos is the greenest of the Aegean islands and surely deserves its divine reputation. Nature lovers and sun-seekers alike are attracted to its pebbled beaches, green landscapes, and impressive rocky cliffs. The island is also renowned for its vineyards and is home to the impressive ruins of the Temple of Hera, as well as the remarkable Tunnel of Eupalinos, a feat of ancient engineering that once supplied clean drinking water to the people of Pythagoreio.

THE ISLAND

Pawel Kazmierczak / Shutterstock.com

Separated from the Turkish mainland (visible from many parts of the island) by the narrow Strait of Mycale, Samos enjoys an ideal location in the Aegean on the route between Athens and Izmir and is often used as a stopping-off point for travellers between the two countries. It is also one of the greenest islands in the area and boasts a huge number of idyllic little beaches found all along the coast.

Samos is rightfully thought of as an ancient centre for scholarship and learning, as it was the home of philosopher and mathematician Pythagoras (the caves where he lived and taught can be visited on Mt. Kerkis), and it is also fabled to be the birthplace of the goddess Hera, and the remains of an ancient temple built in her honour can still be found near the city of Pythagoreio. Other main urban areas include Vathy (Samos Town) and Kokkari, both on the north coast, where much of the island's best dining and nightlife can be found lining the harbour areas of each city. Traditional dishes are complemented by local vintages and unmistakable Greek hospitality.

SAMOS BEACHES

Below is a brief selection of the best beaches on Samos Island.

Livadaki Beach

About 10 kilometres north of Vathy lies one of the island's most pristine beaches, Livadaki. The waters are crystalline, the sand is soft, and both are warm and welcoming. It is even possible to borrow free kayaks and umbrellas to find protection from the sun.

Lemonakia Beach

Lemonakia Beach is less windy and has calmer waters than other beaches in the area. There are several options for food and drinks (Andreas Place is the most popular restaurant in the area), and there are also showers, toilets, and playground areas.

Mikro Seitani

If you can only visit one beach during your stay on Samos, be sure to make it Mikro Seitani. This small and secluded beach is reachable only on foot or

by boat, and it is well worth the hike.

Surrounded by large rock formations and lush vegetation, it is by far the most scenic beach on the island.

Tsamadou Beach

Tsamadou Beach is, perhaps, the most popular beach on the whole island of Samos, and it's not hard to see why. The water is at once

crystal clear and a vibrant shade of blue-green that has to be seen to be believed. There is a restaurant nearby and plenty of sunbeds, but it tends to be quite busy.

Balos Beach

Balos Beach is a more relaxed and less frequented beach on the south side of the island of Samos, but it is by no means less picturesque

than some of the more popular beaches.

Megalo Seitani

An additional 30-minute walk beyond Mikro Seitani, the even more secluded and idyllic Megalo Seitani is maybe the most beautiful beach

on Samos. The white pebbles and azure water are framed by lush green hills in every direction.

DO & SEE

mangojuicy / Shutterstock.com

Samos is home to a wealth of beautiful beaches, both secluded and lively, but always surrounded by breathtaking scenery. The island's other assets include interesting museums, temples and castles, as well as the Cave of Pythagoras, where the ancient philosopher once resided and taught, and the marvel of ancient engineering

that is the Tunnel of Eupalinos.

Tunnel of Eupalinos

Perhaps the greatest testament to the scientific genius of Samos' golden age is the 1,036-metre-long Tunnel of Eupalinos — an aqueduct and service tunnel built in 524 BC. This incredible feat of ancient engineering claimed the lives of many workers, but brought vital drinking water to the inhabitants of Pythagoreio, then a metropolis of 80,000.

Heraion

Although today only some ruins remain, this 6th-century temple dedicated to the goddess Hera (the wife as well as the sister of Zeus) was

once four times the size of the Parthenon in Athens. The road leading to the site from Pythagoreio was once lined with impressive statues that led the way to the temple.

Castle of Lykourgos Logothetis

The Castle of Lykourgos Logothetis — named after a renowned leader from the War of Independence — dates back to 1824 and spans an impressive 400

meters. It stands as a remarkable example of defensive architecture, and it was constructed using remnants of various archaeological monuments. During the Revolution against the Turks, the castle served as a headquarters. Visitors can freely explore the castle's remnants and marvel at the stunning vistas of Pythagorei Bay.

Samos International Airport (SMI)

Samos International Airport (SMI), also known as Aristarchos Airport, lies about 5 kilometres away from the nearby town of Pythagorio. KTEL buses serve the airport about 4 times daily, and taxis are available to get to the major destinations on the island, primarily Pythagoreion and Vathy.

Public Transport

The cities of Samos are easy to explore by foot. Transportation between the main urban areas (Vathy, Pythagoreion, Kokkari, Karlovasi, etc.) is best done by bus, as the island boasts a good and effective bus network. Most destinations can be reached very inexpensively within about an hour. Ferries are also available to several hard-to-reach beaches, as well as to other Aegean islands and to Kusadasi, in Turkey.
