THE CITY

James Willamor / Flickr (image cropped)

San Juan is a bustling metropolis that has evolved from its nearly 500 year-old colonial roots to become one of the most important cities in the Americas. Spanish colonists, who called it Ciudad Puerto Rico (or “Rich Port City”), founded the 77 square-mile city in 1521.

The city is divided into neighborhoods such as Old San Juan, Puerta de Tierra, Miramar, Santurce and Río Piedras, where most of the cultural attractions are concentrated. The Condado and Ocean Park neighborhoods are ideal destinations for beach lovers, who can enjoy their spectacular turquoise-blue waters and white, sandy shores. The two neighborhoods are also known for their world-class hotels and late-night entertainment.

At the heart of the city is Old San Juan, a magnificent 47 square-mile islet that is connected to the rest of the town via two bridges. The walled city is host to Spanish-era architectural sites, such as La Fortaleza, the oldest executive mansion in continuous use in the Americas. In the area, you will also find residential neighborhoods, historic forts like San Felipe del Morro and Fuerte San Cristóbal, and inviting public plazas. Tours of the historic sites are available all day, every day, and offered in both Spanish and English.

Visitors who don’t just come in search of history are often attracted by the bustling nightlife and shopping. It is said that the arrival of some of the world’s most fashionable designers - Gucci, Louis Vuitton and Salvatore Ferragamo -has transformed Ashford Avenue (in the Condado district) into a mini replica of Miami’s South Beach. And speaking of shopping, San Juan is also home to the Caribbean’s largest shopping center, Plaza Las Américas.

The starting point should be Old San Juan, where walking is the norm, but free trolleys are available to take visitors from one site to the next. Nobody who visits the island should leave without seeing the forts, the churches and the cobblestone streets of Old San Juan.

San Juan is mainly served by the Luis Muñoz Marín International Airport, which is located about three miles (five kilometers) southeast of

San Juan. Upon arriving, visitors are offered several ways of getting to the city:

Shuttles are provided by most large hotels, as well as by private companies, and taxis and car rental companies can be found at all terminals.

The local AMA buses run from the airport to the city, departing from the departures level at terminals A and D.

Public Transport

Getting around in San Juan is an adventure, especially since drivers can be quite aggressive and tend to drive fast. Distance is measured

both in miles and kilometers.

For the most part, getting around San Juan is rather easy, provided that the traffic is light. There are peak times, especially in the morning and early afternoon when traffic jams are the norm.

Autoridad Metropolitana de Autobuses:

There is a public bus system in place, which is quite affordable. The bus system operates 30 routes along the San Juan area and several other municipalities. Unfortunately, the buses are not always on time so you need to have plenty of time to use them. Buses run from 4:30am to 10pm, Monday to Friday and from 5:30am to

10pm on Saturdays, Sundays and holidays.

Taxi

At the airport, visitors are greeted by a fleet of white tourist cabs, which offer fixed fares on specific routes. There are metered taxis available

outside the established zones, with standard fees that vary according to distance, number of passengers, number of pieces of luggage and the duration of the trip.

Post Office

Puerto Rico uses the U.S. Postal Service, which operates numerous branches throughout the San Juan area. Stamps are available at

pharmacies and retailers in the tourist district. Post Office business hours are normally Monday through Friday from 8am to 4pm and - depending on the location - on Saturdays from 8am to 12pm.

Pharmacy

The good thing about being in the San Juan area is that there will always be a pharmacy that is open 24 hours, and normally very

conveniently-located. Drugstores such as Walgreens sell over-the-counter medication and will usually dispatch prescription drugs rather quickly.

Urgent medical and dental care are also available at several area hospitals and clinics, including the Ashford Presbyterian Hospital in the Condado area, and smaller neighborhood treatment facilities.
