Best Time to Visit

Gothenburg experiences the beauty of all four seasons. The city showcases a stunning display of yellow-red hues during the autumn, while its winters, although cold, offer a milder climate compared to northern Sweden. As spring arrives, the city awakens from the darkness of winter, basking in the slow return of light. Summer, on the other hand, is a season of long, sunlit

evenings, making it a favourite time for tourists to visit.

From May to September, Sweden shines at its best. During this peak season, visitors from all over the world flock to Gothenburg to revel in the extended daylight and soak up the vibrant atmosphere. The city comes alive with a plethora of musical and cultural events that captivate both locals and tourists. Additionally, the picturesque archipelago is also perfect to explore on a warm summer day.
