ss Rotterdam

The ss Rotterdam (1959) is the former flagship of the Holland-America Line. The steamship was built in Rotterdam, returning to its home port

in 2008 after many voyages and nautical miles. Since then, it has been moored at the tip of the Katendrecht peninsula. It's used as a hotel, restaurant and events venue. The terrace on deck offers a unique view of the city. An audio tour guides visitors through the authentic details of the restored lounges and decks and offers a peek at the engine rooms.

CITY OF ARCHITECTURE

OssipvanDuivenbode@rotterdambrandingtoolkit.nl

Full of energy and innovation, Rotterdam reinvented itself after the bombing of the Second World War. It broke with the past and chose modern architecture. The motto: light, air and space, was ground breaking for that time.

Rotterdam still embraces experimentation: almost anything is possible. Here, you are constantly surprised by new initiatives: from a rooftop city farm to a music festival in the harbour, from an exclusive rooftop bar to a brewery in an old warehouse.

If you love architecture then a visit to Rotterdam — with its patchwork of architectural styles — is a must. Icons of the Nieuwe Bouwen era stand beside the typical reconstruction-architecture from the sixties, seventies and eighties. They clash cheerfully with the hypermodern landmarks that have been built in recent decennia: the Erasmusbrug, Rotterdam Central Station, De Rotterdam, the Timmerhuis and of course the Markthal.

Erasmus Bridge

Rotterdam's answer to Paris' Eiffel Tower and Sydney's Harbour Bridge, the graceful Erasmus Bridge opened in 1996 and was dubbed the Swan

by the locals - definitely one of the city's most famous landmarks! The 800-metre long bridge spans the Maas River and links the northern and southern parts of Rotterdam.

According to USA Today one of the world's most spectacular new bridges.

The Cube Houses

The Cube Houses (Piet Blom, 1984) are part of the Blaakse Bos (Blaakse Wood) development which borders on the Laurenskwartier district and the Waterfront area. The architect wanted to design a kind of village within the city and saw the houses as trees and the whole area as a wood. The Cube Houses are tipped to one side as it were, making three sides face the ground and three face the sky. Don't forget to visit the Kijk-Kubus (Show-Cube) to experience what life is like in a Cube House.

Markthal Rotterdam

Sample the delights at the Markthal. In the first indoor market hall in the Netherlands, you can find nearly 100 fresh produce stalls, about 15 food shops and diverse restaurants including Jamie's Italian (from Jamie Oliver). If you look up you will see the biggest artwork in the Netherlands, the wall painting the Horn of Plenty.

De Rotterdam

De Rotterdam is an iconic example of urban architecture, designed by Rotterdam based architecture firm OMA/Rem Koolhaas. The three linked towers are nearly 150 metres high, forming a 'vertical city' of high-class flats, a 4-star hotel, offices, shops, restaurants, fitness and parking facilities. The name refers to the ss Rotterdam, a steamship that once sailed a regular route to New York and offered a wide range of functions for its passengers' comfort.

ART & CULTURE

IrisvandenBroek@rotterdambrandingtoolkit.nl

Rotterdam has a rich cultural scene centred largely around the cultural axis between Museumpark and Witte de Withstraat. This area includes acclaimed museums like Museum Boijmans Van Beuningen, Kunsthal Rotterdam and The New Institute, where large and small (international) exhibitions for old and new art, design and photography are presented. The numerous galleries around Witte de Withstraat and the city centre are also well worth your time.

You don't necessarily have to head indoors to see art in Rotterdam, though. Pablo Picasso, Joep van Lieshout, Henry Moore, Paul McCartney, Elmgreen & Dragset: masterpieces by the world's most famous artists can simply be visited in public in Rotterdam. If you love street art, feast your eyes on the beauties around the Luchtsingel pedestrian bridge and the Hofbogen arches, where major and impressive wall paintings by local artists are progressively covering the walls.

Rotterdam also boasts many theatres, concert halls and arthouse cinemas where you go to be inspired and touched by (classical) music, theatre, cabaret, dance and musicals from local, national and international artists and companies.

Fans of arthouse films can indulge themselves at the charming old Cinerama cinema, at the LantarenVenster movie house or the new small Kino movie theatre. Or visit Rotterdam in January during the global International Film Festival Rotterdam.
