Alena Stalmashonak/Shutterstock.com

Santiago de Compostela has been a centre for culture and scholarship for centuries, most famous for being the end destination of a thousand-year-old pilgrimage: El Camino de Santiago, or the Way of Saint James. Being the capital of the Galician region in north-western Spain, everyday life in Santiago is modern and chic. Awarded recognition as a UNESCO World Heritage City in 1985, Santiago de Compostela is a historical gem and one of the most impressive cities in Spain.

THE CITY

bepsy/Shutterstock.com

You don't have to be a pilgrim to enjoy the wonderful city of Santiago. Its historic centre is widely accepted as one of the most beautiful old towns in Spain, if not the world, and it is where visitors wish to spend most of their time. Wander through narrow streets among ancient stone buildings and be greeted by history at every turn.

Santiago is considered to be one of the spiritual capitals of Christendom, on par almost with Jerusalem and the Vatican. The city has been shaped around the spot where the relics of the disciple James - Santiago - are said to be found in a field almost 1,000 years ago, sparking the religious pilgrimages in the Middle Ages.

But Santiago has a modern side to it as well. It is home to over 40,000 students that breathe fresh life into the city, giving it lively nightlife and strong cultural and artistic tones. Add to that hip shopping and an innovative culinary scene, and you have one of northern Spain's most interesting and beautiful destinations.

This old city in the north east of Spain has a lot to offer. The 40,000 students that live here make the city what it is today, a lively and modern metropolis set among an Old Town teeming with history. Santiago is a unique blend of old and new, with innovative art and culture and a fascinating history of pilgrimage, visible on every corner.

Catedral de Santiago de Compostela

The final destination for pilgrims travelling the Camino de Santiago is the Cathedral, with the tomb said to contain the remains of the apostle

James. This beautiful Cathedral is one of the most famous landmarks in the region, and for good reason.

TOURIST INFORMATION

Passport / Visa

Spain can be visited visa-free for up to 90 days by citizens of most European countries, Australia, New Zealand, Japan, South Korea, Taiwan, Malaysia, Israel, UAE and most countries in America. If you are unsure whether

or not you need to apply for a visa, we recommend contacting the embassy or consulate in your country. International (non-Schengen) travelers need a passport that is valid for at least 3 months after the end of their intended trip in order to enter the Schengen zone. Citizens of Schengen countries can travel without a passport, but must have a valid ID with them during their stay.

Best Time to Visit

The best period to visit Santiago de Compostela is during the summer, especially from June to August, when it is sunny and warm during the day and quiet cool at night, and the beginning of September when temperatures are more temperate and the tourist crowds have dissipated.

Santiago de Compostela Airport

Santiago de Compostela Airport (SCQ) is located about 10 kilometres northeast of the city. There are taxis available just outside the terminal, and the ride to the city centre takes approximately 15-20 minutes.

You can also take a bus to the central bus station in Santiago. The bus operates from 07.00 to 23.30 with departures every half an hour.

Public Transport

The historic city centre of Santiago de Compostela is small and most areas are closed to traffic. A good pair of shoes is therefore best for moving

around in the historic town centre. There is also an extensive network of buses in Santiago de Compostela that can connect you to areas further afield. You can buy a single bus ticket, but it is cheaper in the long run to buy a travel card with 10, 20 or 30 trips.

Pharmacy

Farmacia Valdés Cabo is currently run by the second generation of the Valdés family: founded in 1924, it became a strong point of reference for the

locals but also for the tourists in Santiago. Here you will be able to take fast control of glucose, cholesterol and many other blood parameters seven days a week.
