It only took Shenzhen 30 years to go from a little-known fishing village to an international metropolis. The expanding economy and countless opportunities attract people from all over the country to this young and dynamic city. With people flooding in, this tech hub has become a melting pot of various local cultures and the showcase of a younger China. Although Shenzhen doesn't have much historic heritage to speak of, it is certainly one of the most modern Chinese cities with great infrastructure.

THE CITY

ken19991210/pixabay

Four-meter wide Chung Ying street links Hong Kong to Shenzhen in Luo Ho in just a few hundred easy steps. Huanguang, Dongmen & Bagua food markets in the city centre are a vibrant introduction to the succulent tastes of China's mainland.

Fancy a night out? Then you are sure to find yourself in Shekou district at some stage dancing the night away in one of the city's many nightclubs while the city's balmy weather means it is possible to head out in shorts and T-shirt virtually all year-round. Beyond the city proper, the special economic zone hosts the Overseas Chinese Town where its four massive theme parks are also the venue for a series of international festivals celebrating music, beer, food and dance at various times of the year.

Shenzhen is also dubbed the 'Silicon Valley of China' for hosting a massive supply chain of electronics that stretches across the country. When visiting the Huaqiangbei market, you can find a massive selection of these, from PCs to circuit boards, as well as shop for the next-generation gadget right in the place of its production.

DO & SEE

Xiuxia Huang/Shutterstock.com

If you are looking for some traditional and historical sites, Shenzhen might not be the best destination. But what it does have are a few original theme parks and shopping opportunities - particularly for electronics - that make the city attractive as a travel destination. Shenzhen is large and sprawling while the metro system is simple, efficient and easy to use for access to most of the venues on your tick-off list.

Overseas Chinese Town /

Overseas Chinese Town is a cluster of scenic and entertaining spots, including, most notably, Shenzhen's 4 famous theme parks: Splendid

China, Window of the World, Chinese Folk Culture Village, and Happy Valley. It is a perfect day-trip destination for families and groups of friends. Some of the highlights include the longest log flume ride in China, an all-glass transparent observation deck, as well as various kinds of scenic artificial gardens and architecture, some recreating original European buildings.
